

IEEE INSTRUMENTATION & MEASUREMENT SOCIETY®

JOIN TODAY!

Why I&M?

Measurement is a part of almost all engineering, for "to measure is to know," and we must understand the universe in order to engineer solutions in it. A professional development program based on improving your knowledge of measurement and your use of instrumentation is a key part of engineering from biomedical to aerospace. Power electronics needs it and so does high speed computing. The Institute for Electrical and Electronic Engineers is the largest professional organization in the world. Networking is recognized as a secret of success so why not start at the top and network with the most diverse group of professionals in your field. And if Instrumentation and Measurement isn't your first Society of interest within IEEE, it should be your second. Join us today and take advantage of resources and connections that the I&M Society can provide to boost your expertise in any field of electrical engineering.

Chapter Activities

Chapter Development Funding

The I&M Society provides funding for local Chapters to support their initiatives and activities. Consider submitting a funding proposal for such items as:

- Creating promotional material introducing your Chapter and its activities
- Providing travel expenses for a guest speaker or I&M Society Distinguished Lecturer
- Facilitating connections between Chapter members and local industry
- Organizing local activities: contests, workshops, or other professional development events

Visit our website [HERE](#) for more information on this award.

Contact: Luca De Vito, IMS Chapter Liaison | devito@unisannio.it

African Initiative

The I&M Society aims to promote and improve the services for African members of the Society by providing unique funding opportunities. Consider submitting a funding proposal for such items as:

- Providing for the improvement of University didactic equipment for subjects in instrumentation and measurement
- Organizing local activities: contests, workshops, or other professional development events
- Supporting the future formation of a Chapter or Student Branch Chapter

Visit our website [HERE](#) for more information on this award.

Distinguished Lecturer Program (DLP)

The I&M Society's DLP is one of the most exciting programs offered to our members, providing I&M chapters around the world with talks by experts on topics of interest and importance to the I&M community. Our lecturers are among the most qualified experts in their own field, and we offer our members a first-hand chance to interact with these experts during their lectures. The I&M Society aids chapters financially so that they might use this program.

Visit our website [HERE](#) for more information on this award.

IEEE I&M Society Outstanding Chapter Award

IEEE Instrumentation & Measurement Society Outstanding Chapter Award

Prize: \$1,000 USD and certificate

Nomination Deadline: August 1

Presentation: Annually at I2MTC

Visit our website [HERE](#) for more information on this award.

IEEE INSTRUMENTATION & MEASUREMENT SOCIETY®

Technical and Standards Activities Committee

Welcome to the Technical and Standards Activities Committee (TSAC)! The I&M Society TSAC manages technical committees' activities and assists working groups within the I&M Society to develop standards according to IEEE-SA policy.

Mission of the TSAC:

- Enable and promote Technical Committees (TCs) as the Society's "Centers of Expertise":
 - Foster bringing together Society members with like professional interests for the exchange of information, education activities, and the development of professional expertise.
 - Foster link with relevant industry in the specific field of interest of the TC.
 - Foster the development and promotion of Standards (IEEE, IEC, ...).
 - Nominate members for various Society Awards and recognitions.
- Support and promote participation of I&M Society members in Standards Activities

IEEE INSTRUMENTATION & MEASUREMENT SOCIETY®

IEEE IMS Society Awards

The IEEE Instrumentation & Measurement Society (I&M) is soliciting nominations for its Society Awards. To view the full detailed listing of each award please visit our Awards page on the website. Nominations are due by 1 August 2020. Nominators should utilize the forms associated with each award description found at ieee-ims.org/awards.

Award Nominations due by 1 August 2020

Society Awards

- Career Excellence Award
- Distinguished Service Award
- J. Barry Oakes Award
- Outstanding Young Engineer Award
- Technical Award
